# 3

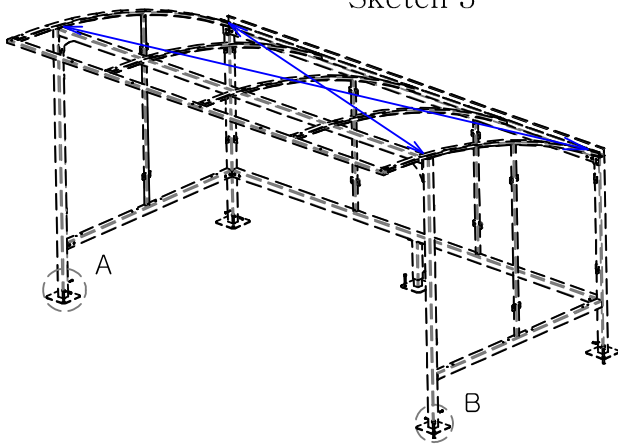

Sketch 1

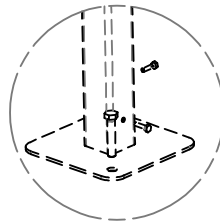

Sketch 2

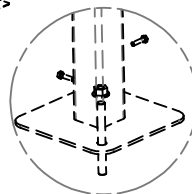

Sketch 3

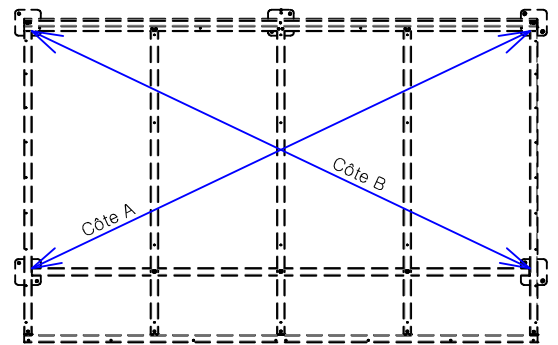

Focus A

Focus B

Sketch 4

Adjust the shelter's levels (sketch 1 and 2) and set the feet with V4  
 Check the diagonals (A and B have to be similar) (sketch 3 and 4) and level the posts

Seal the plates in the ground:

Into a concrete slab or concrete blocks:

- Drill into the concrete with a 10mm broach
- Screw V5 with an impact wrench

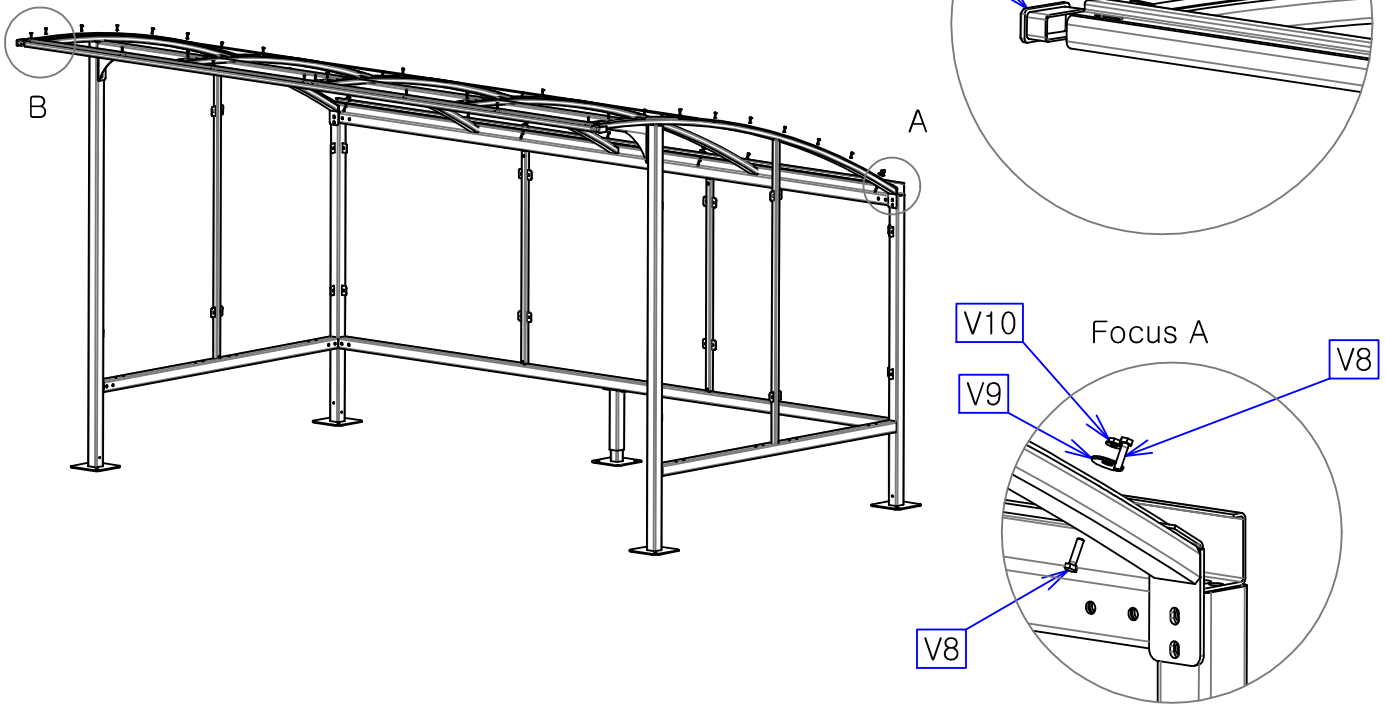

Into asphalt:

- Drill into the concrete with a 10mm broach
- Full up the holes with chemical resin
- Introduce V6 in the hole, circling
- Tighten the shelter with V7
