### 127/PL 600SA

### SEMIAUTOMATIC BOLLARDS WITH GAS ACTUATOR

The semiautomatic bollard PILOMAT 127/PL 600SA with single gas actuator is designed and built with architectural appearence similar to that of the automatic PILOMAT bollards and therefore also allows the combined use of both versions. Current models are the result of the dedication of more than 40 years in the field of access control, and a twenty-year specialization in bollards.

### **GENERAL FEATURES**

The Semiautomatic PILOMAT are used to define or prevent the stationing or transit of vehicles in pedestrian or private areas. Because of the procedure of parking, it is advised that the semi-automatic PILOMAT be used only if the amount of daily movements is limited.
